This model is sized at about half a meter long. You can print at smaller size but the details might get lost. The smaller turrets are also difficult to make at reduced scale.
Included in the files are a complete stl which you can slice anyway you wish, and a set of separate stls that I used to print mine. This is handy for some of the finer details or direction of printing.

If you can, please use the online documentation found at <http://www.youmagine.com/designs/yamato-style-spaceship> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
