Short description:

9, from the movie 9.

Description:

I designed this using Sculptris and did the pre-flight using Meshmixer. This is my second attempt at designing a 3d model. I tried to make this easy to print and assemble. If you don't like seams you can try the "9 complete.stl". As noted below there are only two files that need supports. I did use Brims on all of the files except the body . Enjoy...

If you can, please use the online documentation found at <http://www.youmagine.com/designs/9-movie> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
