Short description:

Printable Architecture Kit Series 1 This is a printable Architectural model making kit that is fun to print.

Description:

Printable Architecture Kit Series 1

This is a printable Architectural model making kit that is fun to print, build and bring your building designs to life.

This kit is made up of interlocking modular components that fit seamlessly to each other, making it easy and fun to create endless design configurations.

This is a fun educational tool for, Students, Architects, Kids, model makers and design enthusiasts.

Each part was designed to print perfectly without the need for supports or rafts on any FDM FFF 3D Printer.. Just print and build!.

This series contains Beams, Columns, Floor slabs, Stairs, Roofs, Walls and Interior Partitions in 10 separate STL files ready to be printed and assembled.

We will be publishing loads more building parts and interlocking components!

Download, print and start creating!

If you can, please use the online documentation found at <http://www.youmagine.com/designs/printable-architectural-kit-series-1> because those may have been updated. Also, there you can interact and provide praise and/or feedback.
